

Directors Module

Director Screen Specifications

Screen ID: SCR-DIR-001 – Director Dashboard

Field	Value
Screen ID	SCR-DIR-001
Screen Name	Director Dashboard
User Role	Director
Platform	Web / Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Provide the Director with a high-level overview of foundation operations, key metrics, and quick access to core Director functions.

Pre-Conditions: User logged in as Director.

Post-Conditions: User navigates to the required Director function.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Header	Text	Director Dashboard with Foundation logo	Static
Date/Time	Read-only	Current date and time	Auto-updates
Quick Stats Cards	Cards	Key foundation metrics	Total Students, Active Teachers, Pending Mastery Approvals, Unread Parent Messages, Session Reports Pending Review
Recent Activity Feed	Scrollable List	Recent actions requiring Director attention	Click item to navigate
Quick Action Buttons	Buttons	Common Director actions	Staff Scheduling, Mastery Approval, Parent Communication, Reports
Notifications Bell	Icon	Unread notifications	Displays notification count

Screen ID: SCR-DIR-002 – Staff Scheduling

Field	Value
Screen ID	SCR-DIR-002
Screen Name	Staff Scheduling
User Role	Director
Platform	Web / Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Enable operational scheduling by linking teachers to students for specific session blocks.

Pre-Conditions

- Teachers exist in the system.
- Students exist in the system.
- Session blocks are configured.
- Capacity limits are configured.

Post-Conditions

Teacher-to-student assignments are saved and reflected in teacher session dashboards.

Components & Interaction Details

Component	Type	Description	
Teacher Selector	Dropdown / Search	Select teacher schedule	
Schedule View	Calendar / Grid	Teacher schedule	
Add Assignment	Button	Create assignment	
Edit Assignment	Button	Modify assignment	
Assignment Editor	Modal	Manage student assignments	
Capacity Indicator	Badge	Student count vs capacity	
Save Assignment	Button	Save assignment changes	
Cancel	Button	Discard changes	
Remove All Assignments	Button	Clear block assignments	Confirmation message
View Teacher Summary	Button	View schedule summary	R
Conflict Detection	Automated Validation	Prevent double booking	

Screen ID: SCR-DIR-003 – Goal Mastery Approval(or SCR-PD-009 if Program Director is the approver)

Field	Value
Screen ID	SCR-DIR-003
Screen Name	Goal Mastery Approval
User Role	Director / Program Director
Platform	Web / Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Review and approve goals that have completed Teacher B and Teacher C verification.

Pre-Conditions

- Goal submitted for mastery verification.
- Teacher B verification completed.
- Teacher C verification completed.
- Goal awaiting Director approval.

Post-Conditions

- Approved goals become Mastered and archived.
- Rejected goals return to Teacher A with feedback.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Pending Approval List	Table	Goals awaiting approval	Click row for details Columns: Student Name, Goal Name, Teacher A, Teacher B, Teacher C, Date Submitted, Actions
Filter Controls	Dropdowns	Filter by student, teacher, station, date	Dynamic filtering
Search	Text Input	Search students	Real-time filtering
View Verification Details	Button	Opens modal showing all verification data	Shows: Teacher A mastery data, Teacher B outcome & notes, Teacher C outcome & notes
View Trial Log	Button	Opens chronological trial history	Shows all trials logged by Teacher A for this goal
Approval Detail View	Modal	Full goal review information	Student, Goal, Teacher A/B/C data
Approve Button	Button	Approve mastery	Confirmation required
Reject Button	Button	Reject mastery request	Feedback required
Notes Field	Text Area	Director notes	Optional
Print / Export	Button	Export approval record	PDF output

Screen ID: SCR-DIR-004 – Parent Communication

Field	Value
Screen ID	SCR-DIR-004
Screen Name	Parent Communication
User Role	Director
Platform	Web / Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Centralized communication hub for all parent interactions.

Pre-Conditions

- Parent accounts exist.
- Messages or updates exist.

Post-Conditions

Messages are sent and communication history is maintained.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Conversation List	List	Active parent conversations	Displays unread status
Filter Controls	Dropdowns	Filter conversations	Student, Sender, Date
Search	Text Input	Search conversations	Real-time filtering
Conversation View	Chat Interface	View conversation thread	Message history and response area
Send Message	Button	Send message	Message required
Mark Read / Unread	Button	Manage read status	Toggle state
Escalate to Director	Button	Flag conversation	Creates Director notification
Communication Log	Tab / Button	Historical communication record	Read-only
Print Communication Log	Button	Export communication history	PDF output

Screen ID: SCR-DIR-005 – Reports & Oversight

Field	Value
Screen ID	SCR-DIR-005
Screen Name	Reports & Oversight
User Role	Director
Platform	Web / Desktop (Responsive)

Purpose, Pre-Conditions & Post-Conditions

Purpose: Provide reporting, oversight, and analytics capabilities across the foundation.

Pre-Conditions: Session and student data exist.

Post-Conditions: Reports generated, reviewed, exported, or shared.

Components & Interaction Details

Component	Type	Description	
Report Type Selector	Tabs	Report categories	
Filter Controls	Filters	Student, Teacher, Station, Date	
Student Selector	Search Dropdown	Select student	
Session Reports List	Table	Submitted session summaries	
Student Progress Chart	Chart	Goal progress over time	Interactive
Bi-Annual Report Generator	Button	Generate report	V
Preview PDF	Button	Preview report	
Download PDF	Button	Download report	
Email Report to Parent	Button	Share report	Uses Parent Co
Foundation Overview Dashboard	Dashboard	Aggregate metrics	Foundation-wid
Export Overview	Button	Export dashboard	

Screen ID: SCR-DIR-006 – Student Progress Monitoring

Field	Value
Screen ID	SCR-DIR-006
Screen Name	Student Progress Monitoring
User Role	Director
Platform	Web / Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Provide a detailed, student-level view of assessments, goals, sessions, and behavior trends.

Pre-Conditions: Student selected.

Post-Conditions: Director can review comprehensive student progress.

Components & Interaction Details

Component	Type	Description	
Student Selector	Dropdown / Search	Select student	
Student Profile Summary	Card	Student overview	Links to Student
Assessment Summary	Section	Assessment results overview	
Current Goals	Section	Active goals	
Session History	Table	Completed sessions	
Behavior Incident Trends	Chart / List	Incident analysis	T
Goal Progress Chart	Line Chart	Goal progress over time	
Notes Section	Text Area	Internal Director notes	
Print Report	Button	Generate student report	

Program Director Screen Specifications

Screen ID: SCR-PD-001 – Program Director Dashboard

Screen Information

Field	Value
Screen ID	SCR-PD-001
Screen Name	Program Director Dashboard
User Role	Program Director
Platform	Web/Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Provide the Program Director with a centralized dashboard that aggregates all students in the assessment-to-IUP pipeline, highlights students ready for IUP creation, and provides quick access to assessment data and goal assignment tools.

Pre-Conditions: User logged in as Program Director.

Post-Conditions: User navigates to the desired sub-screen (Assessment Review, IUP Generation, Goal Assignment, etc.).

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Header	Text	"Program Director Dashboard"	Static.
Quick Stats Cards	Cards (Grid)	Display key metrics relevant to the Program Director.	Each card shows a number and label, with a link to the relevant screen.- Students in Assessment: # (links to SCR-PD-002)- Assessment Complete (Ready for IUP): # (links to SCR-PD-003)- Active IUP Plans: # (links to SCR-PD-004)- Goals Assigned This Month: # (links to SCR-PD-005)
Assessment Pipeline View	Visual Flow / List	Shows students progressing through the assessment-to-IUP pipeline.	Stages:1. In Assessment – Students currently undergoing 6-week assessment 2. Assessment Complete – Students ready for IUP creation 3. IUP Created – Students with active IUPs Click any stage to filter and navigate to the relevant list.
Recent Activity Feed	Scrollable List	Shows recent actions requiring Program Director attention.	Examples:- "Assessment completed for Student X – Ready for IUP"- "IUP draft saved for Student Y"- "Goal Bank updated with new goal: "Toileting Independence"
Quick Action Buttons	Buttons	Direct links to common Program Director tasks.	- Review Assessments → SCR-PD-002- Generate IUP → SCR-PD-003- Assign Goals → SCR-PD-005- View Goal Bank → SCR-PD-006
Notifications Bell	Icon	Indicates unread notifications.	Red badge shows count. Click opens notification panel (assessment completions, IUP draft reminders, etc.).

Screen ID: SCR-PD-002 – Assessment Review & Approval

Field	Value
Screen ID	SCR-PD-002
Screen Name	Assessment Review & Approval
User Role	Program Director
Platform	Web/Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Provide the Program Director with a comprehensive view of all completed and in-progress 6-week assessments.

Pre-Conditions: Assessment data exists (SCR-010, SCR-012, Skills/Behavior assessments).

Post-Conditions: Assessments are reviewed, marked as "Ready for IUP", and the student status is updated.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Assessment List	Scrollable Table	Displays all students with assessment data.	Columns:- Student Name- Age- Program/Group- Assessment Status (In Progress, Complete, Reviewed)- Date Completed- Actions (View Report, Mark as Reviewed)
Filter Controls	Dropdowns / Date Pickers	Filter assessments by Student, Program, Group, Status, or Date Range.	Reduces the list to relevant items.
Search	Text Input	Search assessments by Student Name.	Real-time filter.
View Report	Button	Opens the Assessment Summary Report (SCR-015) for the selected student.	Displays:- Student Information (auto-populated)- Skills Assessment (ABLLS): Summary scores, need map, and detailed domain results- Behavior Assessment (MASS/FAST): Questionnaire results, identified behavior functions- Preference Assessment: Ranked list of top preferred items- IUP Status: Indicates if an IUP has been created
Assessment Summary Dashboard	Visual Dashboard (within View Report)	Graphical summary of assessment data.	- Skills Radar Chart: Visual representation of ABLLS domain scores- Behavior Function Summary: Pie chart or bar chart showing identified behavior functions- Top Preferences: Ranked list with icons
Mark as Reviewed	Button	Marks the assessment as reviewed and indicates readiness for IUP creation.	Confirmation dialog: "Mark this assessment as reviewed and ready for IUP creation?" Updates student status to "Ready for IUP".
Generate Assessment PDF	Button	Downloads the complete assessment report as a PDF.	Named: [StudentName]_AssessmentSummary_[Date].pdf
Notes	Text Area	Allows the Program Director to add internal notes about the assessment.	Not visible to parents or teachers (internal use only). Timestamp and author logged.

Screen ID: SCR-PD-003 – IUP Generation & Management

Screen Information

Field	Value
Screen ID	SCR-PD-003
Screen Name	IUP Generation & Management
User Role	Program Director
Platform	Web/Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Enable the Program Director to create a comprehensive Individualized Behavior Intervention Plan (IUP) for a student, using data from the 6-week assessment to inform clinical decisions. The IUP includes student information, assessment summary, selected goals (up to 2 per station), and intervention strategies.

Pre-Conditions:

Student has completed the 6-week assessment (SCR-010, SCR-012).

Student status is "Ready for IUP" or "IUP Draft".

Assessment data is available for review.

Post-Conditions:

IUP is created and saved (as draft or finalized).

Goals are assigned to the student (up to 2 per station).

Student status updates to "Active Therapy" (when IUP is finalized).

Goals appear in SCR-002 (Today's Session Dashboard) for teachers.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Student Selector	Dropdown / Search	Select the student for whom you are creating the IUP.	List shows all students with status "Ready for IUP" or "IUP Draft". Required.
IUP Header	Read-only Section	Auto-populated student information.	- Student Name- Age, DOB- Program/Group- Enrollment Date
Assessment Summary (Context Panel)	Read-only Panel	Displays a summary of the student's 6-week assessment results to inform IUP decisions.	Includes:- Skills Assessment (ABLLS): Key strengths and areas of need (top 3 each)- Behavior Assessment: Identified behavior functions and recommendations- Preference Assessment: the system shall auto-populate the "Reinforcement Strategies" section with the student's top 5 preferences from the Preference Assessment. Teachers may select specific reinforcers from the full preference list. Sensory Engagement Summary: When creating an IUP, the system shall display a summary of the student's Sensory Time Engagement Assessment results, including:Activities the student enjoyed, Activities the student refused, Engagement support levels required This data shall be available for the Program Director to reference when developing the IUP, particularly for the "Reinforcement Strategies" and "Antecedent Manipulations" sections.
IUP Form	Multi-section Form	The main IUP document.	Contains editable sections:- form from the admin panel
Goal Assignment Section	Interactive Area	Assign goals to Station 1 and Station 2.	- Station 1 (Basic Skills): Up to 2 goals- Station 2 (Advanced Skills): Up to 2 goalsFor each slot:- Goal Selector (Search/select from Goal Bank - SCR-007)- Goal Name (auto-populated from Goal Bank)- Goal Description (auto-populated)- Mastery Criteria (pre-filled, optionally editable per student)- Notes (optional text for individualization) Goal Type Selection: When assigning a goal from the Goal Bank, the

Component	Type	Description	Validation / Behavior
			Program Director shall be able to: View the goal type (Standard or Task Analysis) For Task Analysis goals, view the full step list Customize the step list for the individual student (add/remove steps) Set per-step mastery criteria Set overall mastery criteria
Add Goal Button	Button (within each slot)	Opens the Goal Selector modal (SCR-007 style) to browse and select a goal.	- Filters by domain- Shows only goals appropriate for the student's age and group- Prevents duplicate assignment of the same goal within the IUP
Remove Goal Button	Button (trash icon, within each slot)	Removes the assigned goal from the slot.	Confirmation: "Remove this goal from the IUP?"
Goal Details View	Read-only Modal	Click on an assigned goal to view its full details.	Shows: Goal Name, Domain, Description, and any associated data.
Auto-Suggest Goals	Button	System suggests goals based on the assessment data (ABLIS scores and areas of need).	Post-MVP enhancement (currently out of scope). For MVP, this button is hidden or disabled.
Draft Save	Button	Saves the IUP as a draft without finalizing.	Allows the Program Director to return later. Draft status is indicated in the IUP list.
Preview IUP	Button	Opens a read-only preview of the complete IUP document.	Shows all sections in a printable format.
Finalize IUP	Button	Finalizes the IUP.	- Validates that at least one goal is assigned per applicable station.- Confirmation: "Finalize this IUP for [Student Name]? This will move the student to Active Therapy status."- Upon confirmation: Student status updates to "Active Therapy", goals become visible in SCR-002, and the IUP is archived as a permanent record.
Print/Export PDF	Button	Exports the final IUP as a PDF document.	Named: [StudentName]_IUP_[Date].pdf

Screen ID: SCR-PD-004 – IUP Library Management

Screen Information

Field	Value
Screen ID	SCR-PD-004
Screen Name	IUP Library Management
User Role	Program Director
Platform	Web/Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Provide the Program Director with a comprehensive view of all IUPs in the system—drafts, active, and archived. This screen enables the Program Director to: View all IUPs for all students, Filter by status (Draft, Active, Archived), Open an IUP for editing (Draft only) or viewing (Active/Archived), Track IUP creation and update history

Pre-Conditions: User logged in as Program Director. IUPs exist in the system.

Post-Conditions: User navigates to the selected IUP for viewing or editing.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
IUP List	Scrollable Table	Displays all IUPs in the system.	Columns:- Student Name- Program/Group- Status (Draft, Active, Archived)- Date Created- Last Updated- Actions (View, Edit - Draft only)
Filter Controls	Dropdowns	Filter IUPs by Student, Program, Group, or Status.	Reduces the list to relevant items.
Search	Text Input	Search IUPs by Student Name.	Real-time filter.
View IUP	Button	Opens the IUP in read-only mode.	Displays the complete IUP document (same format as finalized IUP). Includes all assessment data and goals.
Edit IUP	Button	Opens the IUP in edit mode (SCR-PD-003) for draft IUPs only.	Only visible for IUPs with status "Draft".
Archive IUP	Button	Archives an IUP (typically when a student graduates or transitions).	Confirmation required. Archiving does not delete data; it moves it to a historical state.
Print/Export PDF	Button	Exports the IUP as a PDF document.	Named: [StudentName]_IUP_[Date].pdf

Screen ID: SCR-PD-005 – Student Caseload Management

Screen Information

Field	Value
Screen ID	SCR-PD-005
Screen Name	Student Caseload Management
User Role	Program Director
Platform	Web/Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Enable the Program Director to manage goal assignments for students outside of the full IUP creation workflow. This screen extends the functionality of SCR-007 (Goal Bank & IUP Assignment).

Pre-Conditions: User logged in as Program Director. Student exists in the system. Goal Bank exists.

Post-Conditions: Goals are assigned, updated, or removed from the student's active therapy plan.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Student Selector	Dropdown / Search	Select the student whose goals you want to manage.	List shows all active students. Required.
Current Goals View	Section	Displays the student's current goal assignments.	- Station 1 (Basic Skills): Up to 2 goals- Station 2 (Advanced Skills): Up to 2 goalsFor each goal:- Goal Name (click to view details)- Status (Active, In Progress, Mastered)- Progress % (if applicable)- Remove Goal button (with confirmation)
Goal Bank Browser	Section	The Goal Bank (SCR-007) integrated into this screen.	- Search by goal name or keyword- Domain Filter chips (Communication, Motor, Social, Self-Help, Cognition)- Goal List: Scrollable list of goal cards. Each card shows:- Goal Name- Domain- Description (short)- Assign button (adds to selected slot)
Assignment Slot Selection	Interactive Area	When a goal is selected from the Goal Bank, the Program Director chooses which slot to assign it to.	Options:- Station 1, Slot 1 (if empty)- Station 1, Slot 2 (if empty)- Station 2, Slot 1 (if empty)- Station 2, Slot 2 (if empty)- Replace Existing Goal (if all slots are full, prompt to replace one)
Replace Goal	Modal	Appears if the user attempts to assign a goal when all slots are full.	Shows current assigned goals. User selects which goal to replace with the new one.
Goal Details View	Modal	Click on any goal (assigned or in the Goal Bank) to view full details.	Shows: Goal Name, Domain, Description, Date Created, Last Modified.
Add New Goal to Bank	Button	Opens a form to create a new goal in the Goal Bank.	Same as SCR-007 (Goal Bank). Requires: Goal Name, Domain, Description.
Save Changes	Button	Persists all goal assignment changes.	Validates that the student has at least one goal assigned per applicable station.
Remove Goal	Button	Removes a goal from the student's active plan.	Confirmation required. The goal is not deleted from the Goal Bank, only unassigned from the student.
View Goal Progress	Button	For assigned goals, opens the goal progress chart (graph) for that student.	Navigates to SCR-PD-008 (Graph & Chart View) pre-filtered for the selected goal.

Screen ID: SCR-PD-006 – Clinical Quality Monitoring

Screen Information

Field	Value
Screen ID	SCR-PD-006
Screen Name	Clinical Quality Monitoring
User Role	Program Director
Platform	Web/Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Provide the Program Director with a dedicated interface to manage the Goal Bank. This includes adding, editing, deactivating, and organizing goals by domain. This screen extends SCR-007 (Goal Bank & IUP Assignment) with full management capabilities.

Pre-Conditions: User logged in as Program Director.

Post-Conditions: Goal Bank is updated with new goals, edits, or deactivations.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Goal List	Scrollable Table	Displays all goals in the Goal Bank.	Columns:- Goal Name- Domain (Communication, Motor, Social, Self-Help, Cognition)- Description (truncated)- Usage Count (number of students currently assigned this goal)- Status (Active, Inactive)- Actions (Edit, Delete/Deactivate)
Search	Text Input	Search goals by name or keyword.	Real-time filter.
Domain Filter	Dropdown / Chips	Filter goals by domain.	Options: All, Communication, Motor, Social, Self-Help, Cognition.
Add New Goal	Button	Opens the Goal Details form in "Create" mode.	Accessible to Program Directors only.
Goal Details Form	Modal / Inline Panel	Appears when creating or editing a goal.	Contains:- Goal Name (Text, Required, Unique)- Domain (Dropdown, Required)- Description (Text Area, Required)- Mastery Criteria Template (Optional, used for auto-populating IUP)- Suggested Age Range (Optional, for filtering)- Status (Active/Inactive toggle)
Delete Goal	Button	Permanently deletes a goal from the Goal Bank.	- Confirmation required- Cannot delete a goal currently assigned to any active student- If assigned, the goal must be deactivated instead
Preview Goal	Button	Opens a read-only preview of the goal's full details.	Includes any associated data.

Screen ID: SCR-PD-007 – Parent Communication (Program Director View)

Screen Information

Field	Value
Screen ID	SCR-PD-007
Screen Name	Parent Communication
User Role	Program Director
Platform	Web/Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Provide the Program Director with a communication hub similar to SCR-DIR-004, but focused on clinical aspects such as: Sharing IUP updates with parents, Discussing assessment results, Updating parents on goal progress, Addressing parent questions about therapy plans

Pre-Conditions: Parent accounts exist (linked to students).

Parent has initiated a conversation, or Program Director wants to share an update.

Post-Conditions: Messages are sent and tracked. Communication history is preserved.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Conversation List	Scrollable List	Displays all active conversations with parents for students the Program Director is responsible for.	Each item shows:- Student Name- Parent Name- Last Message Preview- Timestamp- Unread Badge (if new message from parent)Click to open the conversation.
Filter Controls	Dropdowns	Filter conversations by Student or Date Range.	Reduces the list to relevant items.
Search	Text Input	Search conversations by Student Name, Parent Name, or Message Content.	Real-time filter.
Conversation View	Chat-Like Interface	Opens when a conversation is selected.	Shows:- Header: Student photo, Name, Parent Name- Message Thread: Chronological list of all messages- Message Input: Text area + Send button- Share Updates Button: Quick action to share IUP updates, assessment summaries, or progress reports.
Share Assessment Report	Button (within conversation)	Attaches the Assessment Summary Report (SCR-015) to the conversation.	- Opens a preview of the report- Program Director can add a message explaining the report- Sends the report as a PDF attachment
Share IUP	Button (within conversation)	Attaches the finalized IUP to the conversation.	- Opens a preview of the IUP- Program Director can add a message explaining the plan- Sends the IUP as a PDF attachment
Share Progress Update	Button (within conversation)	Shares a goal progress chart (SCR-PD-008) with the parent.	- Allows the Program Director to select a specific goal and date range- Generates a visual chart and includes it in the message
Escalate to Director	Button	Flags a conversation for Director attention.	Creates a notification in the Director's dashboard (SCR-DIR-001).
Communication Log	Button / Tab	View a historical summary of all communications for this student.	Useful for audits and continuity.

Screen ID: SCR-PD-008 – Graph & Chart View

Screen Information

Field	Value
Screen ID	SCR-PD-008
Screen Name	Graph & Chart View
User Role	Program Director
Platform	Web/Desktop (Responsive), Tablet

Purpose, Pre-Conditions & Post-Conditions

Purpose: Enable the Program Director to generate and view visual data representations (graphs and charts) for students. This supports clinical decision-making by visualizing progress, trends, and patterns over time.

Pre-Conditions:

User logged in as Program Director.

Student data exists (session logs, trial data, assessments).

Post-Conditions: Charts and graphs are generated and viewable/exportable.

Components & Interaction Details

Component	Type	Description	Validation / Behavior
Student Selector	Dropdown / Search	Select the student whose data you want to visualize.	List shows all active students. Required.
Chart Type Selector	Tabs / Dropdown	Select the type of chart to generate.	Options:- Goal Progress (Line Chart): Shows independence percentage over time for selected goals- Trial Distribution (Bar Chart): Shows breakdown of prompts used (FP, PP, G, +)- Behavior Incident Trends (Bar/Line Chart): Shows frequency of behavior types over time- Assessment Summary (Radar Chart): Visualizes ABLIS domain scores
Goal Selector (for Goal Progress)	Multi-Select Dropdown	Select one or more goals to display on the chart.	Shows all goals (active and mastered) for the selected student.
Date Range Selector	Date Picker	Select the date range for the data.	Default: Last 30 daysOptions: Last 7 days, Last 30 days, Last 90 days, Custom range
Chart Rendering	Chart Area	Displays the selected chart type with the selected data.	- Interactive (hover/click for data points)- Responsive (scales to screen size)- Auto-refreshes when filters change
Export Chart	Button	Exports the chart as an image (PNG) or PDF.	Named: [StudentName]_[ChartType]_[DateRange].png
Share Chart	Button	Shares the chart via the Parent Communication module (SCR-PD-007).	Links to SCR-PD-007, pre-populating with the chart attachment.
Print Chart	Button	Prints the chart for documentation.	Opens print dialog.
